Gundersen, C., E. Engelhard, A. Satoh, & E. Waxman. *Map the Meal Gap 2014: Food Insecurity and Child Food Insecurity Estimates at the County Level*. Feeding America, 2014. This research is generously supported by the Howard G. Buffett Foundation and The Nielsen Company.

¹Map the Meal Gap's child food insecurity rates are determined using data from the 2001-2012 Current Population Survey on children under 18 years old in food insecure households; data from the 2012 American Community Survey on median family incomes for households with children, child poverty rates, home ownership, and race and ethnic demographics among children; and 2012 data from the Bureau of Labor Statistics on unemployment rates.

²Numbers reflect percentage of food insecure children living in households with incomes above or below 185% of the federal poverty guideline for 2012. Eligibility for federal child nutrition programs is determined in part by income thresholds which can vary by state.

³Data in the state totals row do not reflect the sum of all counties in that state. The state totals are aggregated from the congressional districts data in that state.
