County	Food insecurity rate (full population)	Population under 18 years old	Child food insecurity rate	Estimated number food insecure children (rounded)	Food insecure children likely income-eligible for federal nutrition assistance <sup>2</sup>	Food insecure children likely NOT income-eligible for federal nutrition assistance <sup>2</sup>
--------	----------------------------------------	-------------------------------	----------------------------	---------------------------------------------------	---------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------

<sup>1</sup>Map the Meal Gap's child food insecurity rates are determined using data from the 2001-2015 Current Population Survey on children under 18 years old in food insecure households; data from the 2015 American Community Survey on median family incomes for households with children, child poverty rates, home ownership, and race and ethnic demographics among children; and 2015 data from the Bureau of Labor Statistics on unemployment rates.

<sup>2</sup>Numbers reflect percentage of food insecure children living in households with incomes above or below 185% of the federal poverty guideline for 2014. Eligibility for federal child nutrition programs is determined in part by income thresholds which can vary by state.

<sup>3</sup>Data in the state totals row do not reflect the sum of all counties in that state. The state totals are aggregated from the congressional districts data in that state.

# Map the Meal Gap 2017:

## Child Food Insecurity in West Virginia by Congressional District in 2015 <sup>1</sup>

Congressional District	Food insecurity rate (full population)	Child food insecurity rate	Estimated number food insecure children (rounded)	Food insecure children likely income-eligible for federal nutrition assistance <sup>2</sup>	Food insecure children likely NOT income-eligible for federal nutrition assistance <sup>2</sup>
1	14.1%	19.0%	22,550	70%	30%
2	14.0%	19.5%	26,510	67%	33%
3	16.8%	24.0%	29,990	69%	31%
