¹Map the Meal Gap's food insecurity rates are determined using data from the 2001-2010 Current Population Survey on individuals in food insecure households; and data from the 2010 American Community Survey on median household incomes, unemployment rates, poverty rates, and race and ethnic demographics.

²Numbers reflect percentage of food insecure individuals living in households with incomes within the income bands indicated. Eligibility for federal nutrition programs is determined in part by these income thresholds which can vary by state.
